## Summer School for Teachers

Announcement has been made of the dates of the Summer School for Teachers at the University at Edmonton, which will be from July 3rd, to August 5th. Lectures will be based chiefly on the new curriculum for the elementary schools which goes into effect on Sept. 1st next. This will afford teachers an excellent opportunity of becoming acquainted with the new curriculum. Classes

will be organized in English, Citizenship, Industrial Arts, Music, Writing, Elementary Science, Physical Education, Agriculture and Household Economics.

Permit teachers will soon be a thing of the past, declares Hon. Perrin Baker, minister of education. Though there are about 200 permits now in existence, these have been granted only until the middle of April. About 500 new teachers from the Normal schools will be available this season.

## Results of High School Examinations

### GRADE XII

Aylmer Liesemer 78.175; Vera ScsSmith 61.54; Henrietta Henderson 63.15; Robert Eubank 50.72.

### GRADE XI

Ruth Reubacher 74.; Frances Larson 73.55; May Siebert 72.2; Iona Larson 70.55; Winnie Arndson 69.3; Ethel Klinck 66.2; Lois Clemens 64.73; Irene Walder 62.8; Margaret ScsSmith 62.1; Winnie Moyle 57.; Maxwell Archer 57.; Daphia Smith 54.7; Ernest Clarke 47.7; Ada Herron 39.1.

\* Less than five subjects.

### GRADE X

Nellie Wilson 79.; Elliott Birdsall 73.85; Wilma Meek 73.33; Annie Eubank 72.75; Granville Paton 69.25; Olive Hyde 68.61; Elizabeth Kershaw 66.91; Orville Geiger 66.; Florence Pratt 63.8; Thomas Reed 58.25; Ross Young 52.9; Marjorie White 49. J. E. Harris and Fern Etsell not classed.

### GRADE IX

Emerson Shantz 73.25; Opal Hall 70.6; Ruth Weber 65.; Ruby Hunsperger 61.5 Laurence Clemenson 62.; Roswell Gugin 50.5; Ruby Klinck 58.6; Lucinda Brown 56.99; Marion Leeson 54.16; Helen Reed 53.11; Ada Simons 53.2; Loretta Liesemer 52.75; Allene Schmucke 51.81; Evelyn Liesemer 48.58; Hazel Dricker 47.8; Lucille Smith 45.18; Arthur Gugin 44.36; Amy Wilson 43.9; Emma Walder 42.66; Kathleen Osmond 41. Bligh Leeson 40.28 Russell Berscht 39.85.

Premier Greenfield and Attorney General Provancher are still at Ottawa continuing negotiations in connection with the transfer of natural resources to the province.

## Help Make Didsbury the Cleanest Town in Province.

Have you cleaned up your premises yet? A lot of people have done so but there are still others who have neglected this most sanitary and beautifying duty.

No doubt you have visited towns where the side and back yards looked like a dump ground for all the refuse of the ages and you have mentally registered complete disgust at the neglect and small consideration for the cleaner side of life. You have also perhaps seen other towns which had nothing to boast about in the way of fine buildings but their cleanliness has struck you as being ideal.

and would make it a good place to live in.

Let us put this town in the latter class. Just a few minutes each day will make a world of difference to the looks of the property you live on, whether you own the property or only rent it. If you only rent it you still have to live on it and consequently you benefit the cleaner it is kept and the landlord is satisfied because he has a good tenant.

The weather is now ideal for a little outdoor exercise and you will gain physically and morally as well as mentally by going after the dirt around your home. Do it now.

## AROUND THE TOWN

Miss M. Freeman of High River, was a visitor with Mr. and Mrs. E. E. Freeman for a few days last week.

Mr. A. Simpson of Chesholm, was a visitor with Mr. Cecil Studer for a few days this week.

We notice that the Chief of Police has taken on the extra duty of that of Royal Mail Carrier these days.

Frank Byrt of Cardiff, Wales, has bought out Mr. B. D. Cole who expects to leave with his family for B. C. in about a week's time.

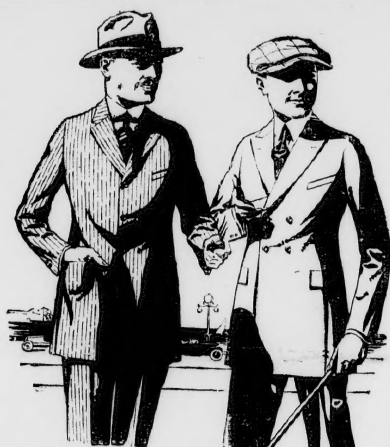

Don't forget the Whist Drive and dance under the auspices of the St. John's Chapter O. E. S. in the Opera House on Friday, May 5th. Best of music furnished. Star members and Masques please invite your friends. Tickets 75 cents.

Don't forget the auction sale of that town property east of the track on Monday afternoon next. You cannot make a mistake in buying some of this inside property.

Mr. Harold Clemens has returned to his position with W. G. Liesemer after an illness of some weeks during which he had to undergo a serious operation. His many friends will be glad to hear that he is beginning to feel like himself again.

A very enjoyable party was given by Mr. and Mrs. J. H. Lowrie on Tuesday evening. Whist was the main attraction of the evening at which Miss Jean Edwards and Mr. G. Liesemer carried off the honors. After that a sherry lunch was served followed by a sing-song which concluded the evenings entertainment.

Airbie will play with the Rosbud baseball league this year, amicable arrangements having been made. A league continued on page 8.

## Hoarseness Rubbed Away Quickly by Nerviline

Changeable weather causes congestion and sore throat. The blood must be drawn from the inflamed part, and this is speedily done by applying Nerviline. The beauty of Nerviline is that it penetrates quickly. It is not oily and every drop sinks right in. It draws out the inflammation, eases the pain, makes the chest and throat well quickly. For relieving coughs, colds, hoarseness, Nerviline is the proper remedy. Thousands say so. Large 25c bottles sold everywhere.

**Fine Instinct**

"It seems to me," remarked the customer, as she watched the assistant trim the slice of ham she had bought, "you are wasting a good deal of that meat."

"Not at all, ma'am," he said gently. "I weighed it first."

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

## Examining Fabrics by X-Rays

X-rays have been employed in recent years for many other purposes than that of examining the tissues of the body. They have been employ-

ed in the examination of metals and of manufactured articles such as aeroplane parts. One of the latest and most interesting applications is in the

used in the manufacture of pneumatic motor tires. In order to give a distinct X-ray photograph the yarn or canvas must be soaked in very

dense materials which absorb the X-rays. This treatment is apt to damage the fibre, but a British company has managed, after many experi-

nents, to produce a solution with which the material can be impregnated without any deterioration. The X-ray examination shows the extent to which the warp and the wool stretch

and it also reveals the changes in structure and in strength which a canvas undergoes when soaked in rubber solution. By means of this high-

ly scientific treatment it is possible to determine how the canvas should be woven to remain square and strong.

### Another British Trade Ship

Some time ago arrangements were completed for the building of a special vessel to act as a floating exhibit.

tion of British manufactures. For various reasons the voyage of this has been postponed for a year or two. Meanwhile a large British liner has been acquired for the purpose of be-

ing converted into a trade ship. The cabins will be used for the accommodation of the representatives; and the holds and other portions of the ves-

WEDNESDAY, MAY 3rd.

It is our pride that we pay them all of us who hug to our inner consciousness the fine upstanding feeling of being able to look anyone in the face and tell him to go to blazes.

But a lot of us who wouldn't owe a penny a day longer than it was due, are not nearly so particular about the debts we owe which were neither contracted nor payable in money.

How about the chap who gave us good advice when we needed it, and which helped us? Don't we owe him something? What about the friend who put himself out to entertain our guest when we were busy? Is he not a creditor of ours? The man or woman who listens for hours while we spill all our troubled and half-baked beans, and go away comforted without knowing why (lacking an understanding of that strange trait of the human mind which makes a trouble shared a trouble halved), don't we owe such people a lot? Don't we owe them more than we can pay, except in kind?

"Oh, well," we say, "we are quite ready to pay; whenever they come and ask us to help we will help."

But we don't manage our monetary debts that way. Are we not proud that no one has to send a collector after the money we owe? Is it not a feather in our cap that we remember that we owe and render payment on the date due without reminder?

Then why, pray, should we wait until reminded to pay the debts of friendship? Why not remember them, too, and if no date is set for their payment, set our own date and go and do something, say something, give something, which will show our friends who have helped us that we are as honest mentally as we are monetarily, and that friendship with us, is not all "get" but as much "give"?—Exchange.

## From Train to Gangplank

A guaranteed connection between trains and steamers bound for Europe has been announced this week by Canadian Pacific railway officials at Montreal. Under the new arrangements this guarantee of connection with steamships is extended more surely to travellers from points further west. If any of the trains bearing steamship passengers are delayed in arrival at Montreal the steamships will be held two hours if by doing so the passengers can embark at that point. If the delay is longer the steamship will proceed to Quebec and there await the delayed passengers. Transportation will be arranged from Montreal to Quebec for passengers booked to sail from Montreal. Company officials announced further stating that when a passenger boards a train on the Canadian Pacific that is due to connect with a Company steamship at Montreal or Quebec he is stepping on the gang plank.

soloist, but—should people practice singing during school hours?

The Ten Commandments as applied to H. S. Students.

1. Thou shalt please close thy traps.

2. Thou shalt remain for one hour after four.

3. Thou shalt not chew gum in school.

4. Thou shalt study well and play never.

5. Thou shalt take out a piece of paper and a pencil.

6. Thou shalt not fiddle upon thy fellows.

7. Thou shalt not kick—thy teachers' love for thee.

8. Thou shalt bear thy scoldings meekly and come up smiling.

9. Thou shalt not write notes in school time.

10. Thou shalt not sing in school—thy teachers may.

## FINIS

"Who's the stranger, Mother dear?"

"Look! he knows us—ain't he queer?"

"Hush my own, don't talk so wild."

"It's your father, dearest child."

"He's my father? Not at all; father died, away last fall."

"Father didn't die, you cub."

"Father joined a Curling Club. But they've closed the club, so he

has no place to go you see—

So place left for him to roam—

That is why he's coming home. Kiss him—he won't bite you child!"

All these curling bugs look wild."

Said a friend to the proud father of college graduate who had just been awarded an A. M. degree:

"I suppose Robert will be looking for a Ph. D. next?"

"No. He will be looking for a J. O. B."

## Provincial Happenings

Arrangements are being made by the Hon. Geo. Hoadley, Minister of Agriculture for the establishment of an experimental station for experiments in treatment of livestock diseases at the government farm just north of Edmonton, at Oliver. There is a farm of 900 acres there in connection with the new institute for mental defects and a part of this will be set aside for use of Dr. Percy Talbot, provincial veterinarian, in the valuable experimental work he is carrying on in connection with various diseases of livestock.

A circular is being issued from the office of the Publicity Commissioner setting forth an explanation of the new system of cream grading and the elimination of the cream buying stations, and the objects of this legislation.

Seeding operations are general throughout the province. Considerable has been done in the Edmonton district, operations being somewhat later in the south but now well under way. A greater part of seeding operations should be concluded by May 1st. Preliminary estimates of area in crop place the acreage as somewhat higher than last year.

Many inquiries are being received by the publicity commissioner from intending settlers in Alberta chiefly from the middle western states. Interest is displayed in all parts of the province. The government is not encouraging wholesale immigration, but offers encouragement to those who have sufficient capital to establish themselves.

Organizers for the campaign against grasshoppers have been appointed by the department of Agriculture. Mr. M. W. Malton of Olds has been appointed organizer for this district.

The annual synopsis of legislation passed at the session of the legislature has been completed by John D. Hunt, law clerk of the legislature, and has been printed in pamphlet form.

There will be nearly 1000 centres for the holding of grade eight examinations in the province this coming June, it is announced by the education department. This will give a wider opportunity than ever to grade eight pupils to try their high school entrance examinations in the schools in which they have received their instruction.

Important development work by one of the large copper syndicates in the states is to take place on the gold claims recently staked in the Sweet Grass Hills, south of Taber, it is announced. The Anaconda Copper Co. is sending three parties into the field to develop the recent strike of gold.

North—Has Alice any of the old-fashioned virtues?

West—I suppose so—most of them are.

## Great Drama

"Not Guilty," this week's attraction at the Didsbury Opera House, is a drama of such naturalness as to give it an appeal that is certain to prove irresistible. It is life. One feels it from the moment the first character makes his entrance. Every now and then the developing dramatic action is given a sudden twist and a real surprise is unfolded. Twin brothers love the same girl, but one is a murderer. The innocent one takes the guilty one's role. The girl loves first one and then the other. The action ranges from the heart of the Adirondacks to India. The villain is deeply villainous and the hero refreshingly self-effacing. There's a swing to the story which will please our patrons.

Development is commencing in the oil fields south-east of Lethbridge, following the oil strike recently made on the Montana side of the Alberta border. Several oil rigs are to commence work on the Alberta side of the border in this field, it is announced.

## IN MEMORY

She is gone our dear, our loved one,

To her mansion in the sky.

To be with her heavenly Father Who is watching from on high.

We will miss her, but she's happy.

In that city, where streets are gold.

Free from sorrow, free from sickness.

Free from pain and free from cold.

She's with Jesus, He who bought her.

She paid the price and kept so true.

Now she's happy, singing praises.

Up in heaven, beyond skies of blue.

Will we meet her in the morning.

Just inside the Eastern gate? Oh God help us to be ready.

Pay the price, ere it's too late. Death awaits us, so does Jesus.

Will we greet Him, or pass Him by?

He is always waiting, watching. With a never failing eye.

Oh God help us to be ready. Keep us pure and give us grace.

So we'll meet her in the morning.

And meet Jesus face to face.

Written in loving memory by a friend and neighbor of Mrs. Agnes Oliver who died April 27, 1922.

## Debts and Debtors

If we give a merchant our custom, we have a right to expect him to advertise—to tell us weekly in the columns of

## "THE DIDSBURY PIONEER"

what he has for us. Advertising is shop news, designed to inform us, save our time, and bring to our attention desirable merchandise. Every retailer who is alive to his interests of his customers has a message—often many messages—for his customers concerning new goods, special offerings, and things that we ought to know about. Customer and non-customer will be attentive and responsive to these messages, if they are delivered every week week in the form of advertisements in "THE DIDSBURY PIONEER". The way to get more business is to ask for it.

## A NOTE TO MERCHANTS

Would YOU buy much or regularly from firms that never solicit your trade? Do you not say—"The firm that wants my business must come after it?"

Yet some of you say in effect to your customers—"Where here. If you want our goods, come and get them, but don't expect us to go after you." It's a poor rule that it doesn't work both ways.

Shop Where You are Invited to Shop

### Cure For Hard Times

Business conditions in Canada are not good at the present time, and while this condition is probably in better shape than most countries, that in itself is poor consolation. Instead of endeavoring to find excuses for present conditions, the chief business of every individual citizen should be to find a remedy and effect an improvement. And the hopeful feature of the situation is that an improvement is not contingent on what Governments, Banks and big financial and industrial corporations may, or may not, do. Betterments will be the result of the actions of individuals.

Somewhere made the remark a short time ago that hard times had come. This is challenged by one of the most widely travelled and best informed men in Western Canada who says that the person making such a remark was in error, and that he should have said "hard times have gone". We are not so sure that even this is the correct way of putting it. Rather we would say that too many people are acting on the assumption that soft times have come.

There is only one remedy for the existing economic ills from which all are suffering, and that is work. Not work by a few, but work by all. Not a minimum of work, but the full maximum of work of which one is capable. Not work as it is advocated by the six-to-eight hour day, five days a week, agitators but work as understood in the Biblical injunction "six days shalt thou labor"—that is a hard, honest day's work.

A financial man who recently made an extended trip throughout Western Canada studying conditions, states that wherever he went he heard such questions as "What are the banks going to do?" "What are the manufacturers, the railways, the Governments, the farmers, going to do?" But in no single instance did he hear a business man or citizen say what H.B. was going to do. There is an idle man said, a mighty epidemic of "I got George to do it" sweeping the country at the present time, and many business men have the disease in a more or less virulent form.

Commenting on the situation as this man found it, a writer in one of the trade journals says: "It has got so that the popular indoor and outdoor sport of today is 'pretext the buck,' and yet we are wondering what is the matter with business."

We are all waiting for the other fellow to start something, and feel deeply offended when he should be the first to move. The world has grown so used to play that it cannot settle down to work. The boss is talking and thinking golf, in a few weeks he will be playing golf, and his employees pattern themselves upon him. The stenographer spends the best part of her short working day planning what she will wear to the next dance. The office boy is wondering how many grandmothers he will be able to safely bury during the baseball season. It is the aftermath of the boss taking up golf, under the excuse that he is "keeping himself fit to play more golf."

"There's nothing wrong with business that I can see," said this observant traveler, "but there is a whole lot wrong with business men. Too many people are drawing their pay and their breath, and that is about all they do draw—they are trying to look prosperous even if they don't feel prosperous. They are wondering, and waiting for others to get busy while filling their seats."

It is well to remember, declares the trade journal from which we have already quoted, that success comes in cans and failures in canis. There is only one letter between the two, but it makes all the difference in the world as far as results are concerned, and it is results that count.

The remedy for present hard times, or soft times, is to get away from present-day delusions, and to get back to the good old biblical methods. Hard work, heading the back, elbow grease, and by the sweat of a brow, coupled with the average amount of brains and general dexterity, things will soon right themselves.

The great present-day need is confidence coupled with energy and a will to do. Confidence in our country and in our country's institutions, but above all confidence in ourselves. It is in our very blood. Millions of men and women during the war learned to look to Governments and semi-government institutions for clothing, food, and the wherewithal to live. This was inevitable when men were taken from their ordinary avocations for military service. But the time has long since arrived when people must stop leaning on such supports, and must exert themselves and provide for themselves. Instead of relying on others to do for them, they must do for themselves. In a word, they must develop their old self-confidence and set to work for themselves.

Until all individuals realize these things, and until they learn that a continuance of so-called soft times in reality means and brings about hard times, the country will wallow in the slough of business depression and unemployment.

## CORNS

Lift Off with Fingers

Don't put a bit! Drop a little "Freemore" on an itching corn, instantly that corn goes burning, then shortly by you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freemore" for a few cents. It is used to remove every hard corn, soft corn, or corn between the toes, and the callus, without surgery or friction.

M. N. D. 1417

### Kitchen Cure

The lighter the pores the more the flour is sifted.

Rice is delicious boiled in milk and served with sugar and cinnamon.

Hot, uncooked corns may be used instead of soaking milk in cup covered for those who prefer the chloroform cure.

Add a teaspoonful of baking powder to old potatoes when they are to be mashed. It will make them fluff and creamy.

Add a little salt to the water when preparing hard-boiled eggs. The eggs when taken from the water are cracked and the shell is easily removed without the white sticking fast.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

England has a millitary magistrate in the person of Miss Mary Anne Evans, a well-known novelist in London, who has recently been appointed a justice of the peace.

Minard's Liniment for Burns, etc.

### Britain Pays Again

U.S. Receives Second Installment for Silver Bought During War

Payment of \$10,675,500 by Great Britain as the second installment on the debt of \$122,000,000 created by the Government's purchase of silver during the war has been reported by the Treasury of the Federal Reserve Bank of New York.

The payment consisted of \$18,500,000 of principal and \$1,372,500 of interest. A further installment of \$12,200,000 on the debt is due May 15, which will cut Great Britain's debt in half.

Under the arrangement for payment by Great Britain on the silver purchases, the debt will be liquidated in May, 1924, these payments being entirely apart from the \$5,000,000 of war loans due the United States from Great Britain.

### DIGESTIVE TROUBLES CAUSE MUCH DISTRESS

Are Nearly Always Due to Thin, Watery Blood

Do not think that because your stomach is easily upset you are the victim of some serious malady. One of the most common causes of indigestion is anemia, or thin, watery blood, a fact that has become generally recognized that healthy activity of the stomach is impossible unless the blood is strong and red.

Dr. Williams' Pink Pills have been found valuable in cases of indigestion, nervous depression, stomachic weakness, just because they are a blood builder and nerve tonic. The red, rich blood which they secure not only imparts a healthy digestion, but carries color to the cheeks and lips, restores vigor and energy.

Important point to remember is that Dr. Williams' Pink Pills contain no harmful drugs or opiates, and are time to be preferred to preparations that merely stimulate for a time. They now you begin to worry the unnecessarily. Your state of health, try the tonic treatment of Dr. Williams' Pink Pills.

You will be surprised to see how rapidly your appetite returns and your debilitated system revives. Miss Ruth Langford, North Brookfield, N.S., who has tried the value of these pills in cases of this kind says: "For a long time I was a sufferer from indigestion, which seemed to carry with it a complication of other troubles. Every meal brought misery with it, and the eating was followed by severe pains in the stomach, causing at times nausea and vomiting. The result was that in general health was seriously affected and the best exertion would tire me out. I had taken much medicine, but did not get more than temporary relief until I began using Dr. Williams' Pink Pills, which I took for a considerable time with the result that I now enjoy every meal and am no longer distressed after eating. I feel myself in every way enjoying better health, and I eagerly recommend these pills to similar sufferers."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at a cost of a box or six boxes, \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## Rheumatism Is Now Gone And Wellington Walks Well As Ever

"I heard so many people telling what Tanlac had done for them that I tried it in my own case and I am convinced it is a wonderful medicine," said David Wellington, a well-known drug clerk, Harpersburg, Manitoba.

For five years I had been a sufferer from rheumatic fever. I simply ached all over from head to foot and my bones felt like they were going to crack. My knees were so stiff actually I used to walk like I had wooden legs, and I just dragged one foot after

the other. Everything I ate seemed to sour on my stomach and I was bothered a good deal with headache and headache.

"I began to improve gradually from the first dose of Tanlac and kept it up until my stomach was in perfect condition and the rheumatism had left me. I am in splendid health now and feel that it is only right that I should tell my experience so that others who suffer as I did may know where they may get relief, too."

Tanlac is sold by all good druggists.

### Say Canada Is Better Market

Conditions Here Much Better Than In U.S. at Present

N. T. Bowman, advertising manager of the Toronto Telegram, who returned from an extended visit to a number of Eastern United States cities, says that many American concerns find sales conditions much better in Canada than in the U.S. at present.

One large firm which uses newspapers almost exclusively in both countries, carrying space of identical size in papers on both sides of the border, and keeping close check on results, reports that during the past year their sales declined 11 per cent. in the United States as compared with only 5 per cent. in Canada.

Another firm, manufacturing a widely-known toilet specialty, although not divulging actual figures, is not less convinced of the soundness of the superiority of conditions in Canada at the present time. This concern also says scrupulous attention to results, and it is as a direct outcome of their recent experience that they have recently commenced a very extensive campaign in Canada, using large samples in newspapers and magazines.

Mr. Bowman reports that both agencies and advertisers in the United States are devoting a great deal more attention to Canada than has been the case for many years.

### Chinese Guarded Silk Secret

For centuries after its first discovery in China carefully preserved the secret of silk culture, and amassed great wealth by exporting it to India, Persia and Arabia.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. H. Williams' Asthma Remedy astutely deserves this exalted title. It has to its credit thousands of cures which other preparations have failed to benefit. It brings help to even the most severe cases of asthma, leading to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

### Artificial Daylight

Surprising Results are Obtained by Use of Special Colored Glass

One of the most interesting problems in illumination is to provide an artificial source of light which will exactly reproduce ordinary daylight. Such a source of light is invaluable in the textile industry and for the making of fabrics. One way of obtaining the desired result is to filter the light of an electric or other lamp through special glasses, but a British inventor recently produced another form in which all the light is reflected from an unbreakable shaped reflector made of certain colors are painted. All the light used comes from this reflector and is modified by the colors to give a very exact imitation of daylight.

An improved form of this artificial daylight apparatus has just been patented. The reflector consists of two layers of material perforated with holes so that a certain number of spots of the colors are exposed. Radial strips of another color are placed over the perforated layers, the whole arrangement being so mechanically strong and giving the correct areas of the various colors to provide artificial daylight.

Mr. L. Littlefield, of McNairy County, Tenn., has 221 direct descendants, including 72 grandchildren, 123 great-grandchildren, and 14 great-great-grandchildren. Mrs. Littlefield is 92 years old.

Minard's Liniment for Dandruff

Ontario Mineral Production

It is estimated that in the decade's history of mining in Northern Ontario, the various mines have contributed more than \$750,000,000 to the wealth of Ontario.

## HEART WOULD BEAT LIKE A TRIP HAMMER

Heart trouble has of late years become very prevalent. It is common to feel a pain catches you in the region of the heart, now and then your heart skips beats, palpitates, or beats with such rapidity and violence you think it is going to burst.

You have weak and dizzy spells, aching sensations, are nervous, irritable and depressed, and if you at one time feel that you are in any danger you get all out of breath.

We know of no remedy that will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy normal condition as

MILBURN'S HEART AND NERVE PILLS

Mrs. Chudvick, Delhi, Ont., writes: "I had palpitation of the heart, and the least exercise, such as going up stairs or up a hill, my heart would pound and palpitate, and at times I was dizzy-headed and had a sinking sensation as if my time were near."

A friend suggested I try Milburn's Heart and Nerve Pills, so I procured three boxes, and by the time the first box was used I began to improve. In all I took six boxes, and now although in my 66th year I feel like a young man, no longer have heart palpitations, and can walk miles without fatigue. At time of sickness I weighed 120 lbs. now I weigh 150."

Price One a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Still Solvent

The Furtall Artist.—Yes, I can make a colored crayon enlargement of your photograph, but I don't recommend it. Have you ever been done in it?

Yes, I have. Yes, I've been done in all I'd rhimed in rubber shoes, but I got money enough left to pay for that colored crayon picture.

## Perk Up and Smile

Blues and Backache Vanish

Toronto, Ont.—

"I can't laugh a year ago I was very poorly of health, my back ached dreadfully and I could scarcely drag myself around to do my housework. I started taking Dr. Pierce's Favorite Prescription and I cannot praise it too highly for the great benefit I received. The backache and pains disappeared entirely and I soon was restored to perfect health. I know that Dr. Pierce's Favorite Prescription is the best woman's medicine for anything ever helped me as much as this 'Prescription.' I have no hesitancy in recommending it to other women who suffer as I did."—Mrs. Mathias Williams, 12 Brookfield St.

## Reap the Reward of Perfect Health

Orillia, Ont.—"I had a bad case of woman's trouble, suffered from backache, nervousness, and sleepless nights. I had great pain all the time, sometimes I would faint at the other but they did me no good. I then took nine bottles of Dr. Pierce's Favorite Prescription and it fixed me up all right. I look much better and feel fine. I will recommend the 'Prescription' to all suffering as I did."—Mrs. Maybelle B. Grant, Box 246.

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription in liquid form. This Prescription is made in Dr. Pierce's Laboratory in Bridgeport, Ont. Send for there if you wish a trial package.

# Compulsory Powers Of Wheat Board Are Not Allowable

Ottawa.—Reconstitution of the Canadian Wheat Board, with compulsory powers, is requested by the members of the Canadian Council of Agriculture and is opposed by the Executive members of the House of Commons, is also given the British view of Canada, according to an opinion by the Deputy Minister of Justice, E. L. Newcombe, and cited in the Commons by the Prime Minister, Mr. W. L. Mackenzie King.

Mr. Newcombe, whose opinion is contained in a report to the Deputy Minister of Justice, Mr. D. L. McKenna, states that the appointment of a Wheat Board, with compulsory powers, interferes with the rights of provinces and of individuals, and is, therefore, against the provisions of the British North America Act, 1867. Mr. Newcombe, however, has an undoubted right to create a board with voluntary powers.

"It is my opinion," said Mr. Newcombe, in the document, titled "The reconstitution of the Wheat Board in the present circumstances with the powers conferred thereon by the orders-in-council is a project constitutionally incompetent to the Parliament of Canada."

The Deputy Minister of Justice deals at length with the powers which were conferred upon the old Canada Wheat Board, and says: "It will be perceived that these powers, naturally, group themselves into two heads. There are enabling or facultative provisions and there are compulsory provisions. As to those of the former class, I apprehend that Parliament has undoubted authority to constitute a board for the purpose of buying and selling and to enable it to contract and to exercise such powers as are necessary or incidental to a voluntary undertaking."

"The board is, however, invested with compulsory powers and, for the purpose of considering the authority of Parliament to constitute a commission clothed with these powers, it is well to mention some of these powers. They include: (a) fixing of maximum prices or margins of profit at which they may be sold by millers; (b) the compulsory taking of wheat in store or in transit to commission fixed by the board, including power by order of the board to transfer the property in any wheat so stored or in transit to such purchaser and upon such terms as the board may nominate and prescribe; (c) prohibition of the buying and selling of wheat in Canada on commission or otherwise and the operating of elevators or warehouses for wheat except by license of the board; (d) authority to regulate delivery to the board of all wheat sold or purchased in Canada; (e) regulation by the board of the dealings of its licensees."

## Brule Mine Busy

Taking on Men at Rate of Ten a Day  
Edmonton, Alta.—That the coal strike has far from crippled the Blue Diamond mine at Brule, is the contention of Manager Gordon Dickson. At present there are 462 men on the payroll of which number 210 are working underground and the daily output is 300 tons. The mine is running on the non-union, open shop basis and new men are being engaged at the rate of ten a day.

The management hopes to reach its former daily average of 1,500 tons daily before the end of the month. Representatives of the United Mine workers are still picketing the station at Brule.

## Living Cost Declines

London.—The cost of living in Great Britain fell a further four points in March. On April 1 it was still 52 per cent. above the pre-war level.

## British Doctor Dies

London.—The death is announced of Sir Alfred Pearce Gould, widely known surgeon. He was 79 years of age.

W. N. U. 1417

## Airplane Badly Damaged

Aviators Require New Machine to Continue Flight to Brazil

Rio Janeiro.—The Portuguese aviators who were attempting a flight from Portugal to Brazil, will be unable to proceed in their hydro-airplane from St. Paul Rocks, a few hundred miles short of their goal, where they landed because of damage to their machine, according to a Havas despatch from Pernambuco. The message says their hydro-airplane was so badly damaged in effecting the landing that it is no longer usable. The aviators, however, expected to save the motor. The estimated distance from is approximately 800 miles, this making the time of their airplane approximately 60 miles an hour. Plans had been made for his celebrations on the arrival of the aviators at Pernambuco, Bahia and Rio Janeiro.

## Schools in Sweden Are Using Films

Elaborate Plans Being Made for Teaching from Movie Screen  
Stockholm.—Swedish school children are beginning to read their lessons from the movie screen. The use of educational films is becoming more and more a part of the lower grade curriculum, even in the most remote districts, and leading educators are making elaborate plans to extend the scope of "film classes."

In the city of Gothen, Northern Sweden, the children are said by visiting American professors to know more about Manhattan Island than young students in western parts of the United States who never have visited the metropolis.

## Solve Mystery of Missionary's Death

Report Shows Priest Was Drowned in Northern Lake

Edmonton, Alta.—The mystery attaching to the death of Rev. Father P. Frapsauce, of the Great Bear Lake Roman Catholic Mission, has at last been cleared. Major G. L. Jennings, officer commanding the R.C.M.P. here, has received a report from Staff Sergeant S. C. Gray, in charge of the Fort Norman detachment, which shows that the missionary lost his life by drowning in the waters of the northern lake.

As is customary with the Mounted Police, every avenue of evidence in connection with the tragedy has been explored, and the report emphasizes the thorough manner in which investigations at the top of the map are made by Canada's frontier service.

## Amunition Dump Explodes

Belgrade.—A terrific explosion occurred at Monastir, in the southern part of old Serbia, when an ammunition dump blew up. The railroad station was destroyed and enormous damage otherwise done by the blast. The number of killed and wounded, says a despatch from Monastir received by the explosion, is still unknown.

## Try to Stop Swearing Habit

Montreal.—The Licensed Victuallers' Association, the liquor dealers organization of Montreal, has had placards printed in both languages, nicely mounted and framed in glass, which they will distribute to all taverns, restaurants, etc., of this city calling for a cessation of the habit of swearing and blasphemy.

## Abolish Police Forms

Vienna.—The police forms which every traveller in Austria was formerly obliged to fill out upon arrival in a city, giving intimate details of himself and his business, are to be abolished.

## WESTERN EDITORS

W. J. Bartlett, Editor of The Enterprise, Baltimore, Alberta.

## Losing Many Cattle

Experts Discover Dehorned Cattle Found on Clover, Die

Toronto.—Correspondents at the Ontario Department of Agriculture in Huron County, have discovered considerable loss of life among cattle has occurred in dehorning after being fed on sweet clover ensilage. They say that several farmers have reported that on dehorning cattle they found considerable difficulty in stopping the blood flowing and in several instances the animals had died. In all cases the cattle had been fed on the sweet clover diet.

## Cannot Participate In Conference

San Marino Has Not Resumed Relations With Central Powers

Genoa.—San Marino, the smallest but oldest republic in the world, has declined through an accredited plenipotentiary for participation in the economic conference. Her envoy was told that San Marino had not yet resumed relations, juridically, with the Central Powers, and that she could not participate in negotiations between countries that were signatories to the peace treaties which terminated the world war.

## Germany's Claims Against Russia

London.—The total German claims against Russia, including bank deposits, railway shares and industrial claims generally, were about £72,000,000, it is reported in financial circles of London. Against this Russia, in accordance with the Versailles treaty, had claims several times greater.

## Danes Sell Soviet Seed

Copenhagen.—In spite of the official Soviet declaration of a boycott on all Danish goods for Russia, the Soviet representative here signed a contract with Danish seedmen for the early delivery in Russia of seed to the value of 2,000,000 kroner.

# The Treaty Between Russia And Germany Must Be Abrogated

## Would Stop Daylight Saving

Member Moves a Resolution in the Federal House

Ottawa.—Daylight saving held the stage in the House when W. F. Kay (Liberal, Mississippi) had a motion calling for an expression of opinion that "it is desirable that legislation should be introduced this session to prohibit the adoption of daylight saving time in any part of Canada." Generally speaking, the trend of opinion was against daylight saving, although the desirability of the resolution in its existing wording was questioned.

Wm. Duff (Liberal, Lunenburg) had an amendment. He moved that the motion merely expressed the opinion of the House that "it is not desirable that daylight saving time be adopted in any part of Canada." Discussion was still in progress when the House adjourned. The resolution and amendment now go over on the order paper to the end of public bills and orders. It is unlikely that anything further will be heard of them this session.

## Second Sum For Cancer Cure Discovery

Lord Atholstoun Offers Another Hundred Thousand as Prize

Montreal.—Lord Atholstoun, proprietor of the Montreal Star, has decided to donate the \$100,000 he is giving for cancer research to the Montreal Cancer Research Fund of London, of which Lord Atholstoun is chairman, while a second sum of \$100,000 is offered as a prize for the discovery of a cure for cancer to be awarded here. This latter amount was the sum originally offered by His Lordship and is open to the world, the award to be decided by the Royal College of Physicians and Surgeons, of London, England.

## High Price For Bread in Russia

Pound Leaf Now Being Sold for 120,000 Roubles

Helsingfors.—A person just arrived in Finland from Petrograd states that the price of bread in Russia during the last few days has been increasing by leaps and bounds. The pound loaf cost on March 16th, 85,000 roubles; on the 17th, 200,000 roubles; on the 18th, 1,000,000 roubles; and on the 20th at Ozerki, a few miles from Petrograd, 120,000 roubles were being charged.

No recent Petrograd figures are available for purposes of comparison but the price of dry bread in Moscow on March 6 was 50,000 roubles the pound, and a month earlier 23,000 roubles.

## Paris—Mr. Lloyd George is reported in Geneva

advice received here to have informed Dr. Wirth, the German chancellor, that there were only two possible solutions of the present deadlock.

The first was that the Germans must cease to be admitted to the discussions of Russian affairs at the conference.

The second was that they must tear up and scrap the treaty made with the Russians. Chancellor Wirth, the message said, while regretting the severity of the latter alternative, did not refuse to take it under consideration and is reported virtually to have accepted it in principle.

The German delegation is active among the other delegations, said these advisers in an effort to obtain a repeal of the Allied decision pronounced against them. The Germans were particularly insistent in pointing out to the Italian delegation that the departure of the German delegation from Geneva would greatly compromise the conference.

The German delegation was reported to be divided on Mr. Lloyd George's proposal that the Russian-German pact be scrapped, with Dr. Wirth accepting it in principle and Foreign Minister Rathenau opposing it.

## No Notes Taken For Income Tax

Regarded Only As Acknowledgement of Debt, But Not As Payment

Ottawa.—Hon. W. S. Fielding takes the ground that it is undesirable to make public transactions between the Government and private citizens in regard to income tax. It was indicated by the finance minister in the House of Commons.

In reply to a question put by R. H. Halbert (Progressive, North Ontario) as to whether notes had been accepted by the Government in payment of income taxes in addition to the note received from the Kingston Pulp and Paper Company, Mr. Fielding said:

"Several notes were received which were regarded by the officials as acknowledgement of the indebtedness, but not as payment. No such notes are now received."

"The Minister of Finance has doubt of the propriety of making public transactions between the Government and citizens respecting income tax. In England, it is understood, such information is regarded as confidential. The right of Parliament to full information regarding public business being recognized, a predecessor of the present Minister of Finance held that if information of this kind was desired a notice to that effect should be placed on the order paper, and upon discussion, the House should judge whether the public interest required it to be brought down."

## British Arranging Loan to Brazil

Amount is Understood to Exceed Five Million Pounds

London.—The London Times learns that the negotiations for a loan to the Brazilian Government are approaching completion. It is hoped to issue the loan within a fortnight. It will be issued by the Barings, Rothschilds & Schroder. The amount will be a considerable one. Its main purpose is to take up banking credits arranged last year against coffee warrants which are understood to exceed £5,000,000. The loan will be secured on coffee.

## Arbuckle Films Banned

New York.—Cancellation of all contracts for the showing of films in which Roscoe (Fatty) Arbuckle appears was announced by Will H. Hays, head of the Motion Picture Producers Association. This action, he said, affected nearly 10,000 contracts.

"THE STORE THAT NEVER DISAPPOINTS"

### AROUND THE TOWN

Continued from page 1  
meeting will be held at Carstairs  
on Thursday night to finish up  
old business and to complete the  
schedule.

Cressman Bros. have purchased the property which used to be known as the Lockner Block, next to the shop which they are at present occupy. They will be moving to their new premises some time this week.

Mrs. H. Roeth received a telegram on Wednesday morning stating the sad news of the death of her mother, Mrs. George Kidd of Paisley, Ont.

Monday, May 8th, has been settled upon as Arbor Day this year, and order-in-council having been passed by the Provincial Government to that effect. The holiday is mainly intended to provide an opportunity for the school children of the province to plant trees about the school premises. The holiday is observed, however, by government offices and in other official circles.

Mr. John Sick while driving into town with a load of hogs on Monday had the misfortune to get off the wagon and at first it was thought he was badly injured. He was brought into the Didsbury General Hospital and upon examination it was found that nothing serious had happened. The accident occurred in front of Mr. Auschubus' farm and help was soon forthcoming. The cause of the accident was that the hogs objected to a free ride and were trying to jump out of a triple box wagon and Mr. Sick overbalanced himself trying to persuade them into a better frame of mind.

### ANNOUNCEMENT

Dr. R. P. Doherty announces that he has taken over the dental office and practice of Dr. W. Duncon, Didsbury, and will continue to give all the best in dental service. Dr. Doherty will be at the office from 9 a. m. to 5 p. m. every day except Sunday and will appreciate being of service to you.

### Wanted and For Sale Ads.
